

STEPHEN PARKER

Full Stack Software Engineer

Portland, Oregon | [linkedin.com/in/stephenparker-03](https://www.linkedin.com/in/stephenparker-03) | stephenparkhum@outlook.com | 541-359-9915

A multi-talented full-stack engineer that's skilled in writing clean & scalable code while keeping UX principles in the foreground of each system's design.

WORK EXPERIENCE

DEPT®

Full-Stack Software Engineer | Oct 2021 - Current

Lead full-stack software engineer with a focus on JavaScript and NodeJS. While also using many modern frameworks such as React, React Native, Vue.js, and Angular.

Stacks

- Standards: HTML, CSS, SCSS/SASS
- JavaScript: TypeScript, React, React Native, Gatsby, Node, Express
- Databases: MongoDB, PostgreSQL, MySQL, GraphQL, Firebase
- Dev Ops: AWS, Docker, Webpack, Github Actions, Circle CI
- Testing & VC: Jest, Ava, Git, Source Tree

HELLO WORLD

Full-Stack Staff Developer | Sep 2019 - Sep 2021

Portland, OR-based development agency with current & past clients that include the following: DC Comics, Bonneville Environment Foundation, SISU, Savers, MetalToad, MyClymb, OMSI, Nike

Product lead for multiple web apps included architecture updates, different design patterns, and testing. Additionally, instructing our intern(s) on general processes and pairing them on new projects.

Within a year of their start date, mentoring interns & juniors with project direction assisted the staff's interns in increasing their skills enough to reach a junior level and begin taking on more significant client tasks.

Stacks

- JavaScript: React, React Native, Gatsby, Node, Express, TypeScript, Jest
- PHP: Laravel, Drupal (7 & 8), WordPress
- Databases: MongoDB, PostgreSQL, MySQL, GraphQL, Firebase
- Standards: HTML, CSS, SCSS/SASS, Grunt
- Dev Solutions: Docker, Lando, Pantheon, WP Engine, Webpack, Github Actions, Circle CI, Git

BLOC.IO

Full Stack Engineer | May 2019 - Sep 2019

Learned industry best practices and practical software engineering standards focused on the web's modern infrastructure through this apprenticeship - HTML5, CSS3, JavaScript, jQuery, Node.js, React, Redux, Git, algorithms, data structures, and design patterns.

- Front End: JavaScript / React / jQuery, HTML5, CSS3, Git / Github
- Back End: Node.js / NPM, MySQL, MongoDB, PostgreSQL, webpack, Python / Django, RESTful APIs

GLOSSOLALIA RECORDS

JavaScript Developer | Sep 2018 - Sep 2020

Web design and full-stack development for a 2020 re-design of Glossolalia Records' website. The goal was to create a seamless web-app interface that would be more streamlined for the record labels' customers.

2020 Stack

- React / JavaScript, HTML, SCSS, NodeJS, Git / Github

2018 Stack

- JavaScript, HTML, SCSS / CSS, Django, Python, MongoDB, Git / Github

NAC3

Operations Director | Jan 2017 - Jan 2019

As the Operations Director for a fast-growing cryptocurrency/Fintech conference based in North America, it's imperative to have an unparalleled skill for organizing.

- Day-of Operations Director that oversees operations/people ops; Organizing beverages and meals for 200+ attendees
- Administrative duties including organizing meetings, sponsor communications, and booking event spaces
- Booking travel/accommodations for sponsors, employees, and speakers of events

ZIRTUAL / STARTUPS.CO

Executive Assistant | Aug 2015 - May 2019

Client history includes the following industries: print/magazine, video game design, governmental consulting, non-profits, art dealers, beer/wine distribution, and many more.

Past/Current clients include Playboy TV, Leadership for Educational Equity, NAC3, K Parks Consulting, and many more!

- Operations Administration: Organizing team workflows, integrating systems into daily routines
- Technologies: Mailchimp, Google Drive, Docs, Sheets, and Gmail processes
- Knowledge of current CRMs - Salesforce, BASE, Highrise, and Hubspot

EDUCATION

BERKLEE COLLEGE OF MUSIC

Music Production and Technology | Mar 2010 - Jul 2011

Expert training in audio engineering/mixing/mastering all within Pro Tools (8.0.3 and up).

LANE COMMUNITY COLLEGE

Music Production | Mar 2009 - Mar 2010

Proficient in multiple DAWs including Digital Performer, Pro Tools, and Logic Pro. Specialized training in virtual instruments, specifically involving Reason, Pro Tools, and the East-West/Quantum Leap's orchestra software.

PROJECTS

GLOSSOLALIA RECORDS (2020)

Full Stack Developer | Oct 2019 - Mar 2020

GLOSSOLALIA RECORDS (2019)

Full Stack Developer | Sep 2018 - Dec 2018

GENRIFY

Web Developer / Designer | Jun 2019 - Jun 2019

Are you a musician that has ever wondered who is the most listened to artists in your genre on Spotify? Or are you a listener who would like to discover new artists in a genre you've just discovered? While Spotify Radio can be a big help for this, genriFy allows you to search for a genre using Spotify and display which are the 50 most popular artists!

HTML, CSS, JavaScript, jQuery, Adobe XD
